I admit that I'm wowed by a little bling now and then. And I can't imagine anything finer than this gilded reproduction console with faux-marble top and bowed acanthus leaf-adorned legs to bring a touch of elegance to a foyer, powder room or other small space. A true statement-maker, the authentically conceived and richly embellished piece combines elements of both the Louis XV and Louis XVI eras, and offers an effective way to shake things up a bit in a Contemporary setting or add to the look of an over-the-top room. Custom options also available, through Via Mediterranée, (480) 990-7263. —LJB
